AGENT ZINN

Makes Report of a Splendid Week's Work among the Farmers.

County Agent W. D. Zinn reports the following for last week:

Number of meetings held three, attendance 138, and number of farms visited, eighteen. The interest, he says, is increasing among the farmers. Four or five communities are arranging to purchase lime crushers. The meeting at the court house Saturday was the best ever. Sixty farmers were in attendance. The subject of silo and silage was discussed along with other pertinent subjects in which the farmers were interested. These meetings should be the means of reaching every farmer in the county. Since Mr. Zinn is in the office from 9 o'clock until 4 each Saturday, he respectfully requests the farmers to call upon him during that day.

During the present week he will visit Eagle district and hold meetings at Dola, Wyatt and Lumberton. On Saturday he will discuss the subject of "Suitable Rotations" for Harrison county farmers. Do not forget the hour.

FINE POSITION

Is Accepted by Mr. Henderson Who Will Establish offices in the West.

J. H. Henderson of the well known and successful local concern, the Henderson Brothers Lumber Company, has become interested in an immense tract of Oregon timber lands owned by the Kendall Lumber Corporation, and he has been appointed by the corporation at a lucrative salary to take charge of the sale department. Mr. Henderson will leave the city Saturday to establish his office in either Denver or Salt Lake City and be permanently located there. He retains his interest in the Henderson Brothers Lumber Company and there will be no change in the business of that concern as a result of his acceptance of the new position.

The Oregon tract owned by the concern, which Mr. Henderson will represent, consists of one billion feet of timber covering 15,000 acres.

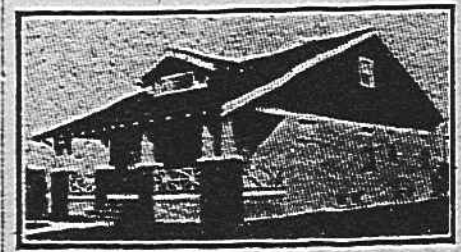

Rheumatism in Ankles

One Bottle of Rheuma Relieved Woman Who Could Not Walk.

Marvelous as this story may seem, it is absolutely true; but this is only one of the many almost magical cures that Rheuma is performing these days. Use of one bottle will convince any sufferer.

Mrs. Gertrude Kozel, Smithfield, Pa., writes: "I had rheumatism for over a year; it settled in my ankles and I could not walk. I have taken one bottle of Rheuma and do not have any more pain, and I can again walk at will."

Wells-Haymaker Co. and all druggists sell Rheuma for 10 cents. It is guaranteed to cure any case of any kind of rheumatism or money back. Gratifying relief comes in a day, because Rheuma acts at one time on the kidneys, stomach, liver and blood, and starts to rid the entire system of poisonous uric acid at once. Advertisement.

This Most Modern Bungalow ever built in Clarksburg, you can buy for \$6,700. Terms to suit. Seven minutes' walk from postoffice. Contains 7 rooms, sun parlor, cellar, laundry, hardwood finish, polished floors, etc. Owner moving to country.

STEVENS BILL

Will Be Discussed at Druggists' Convention by Man of National Repute.

Under the auspices of the West Virginia State Pharmaceutical Association, which is now holding its ninth annual convention in the assembly room of the Waldorf hotel, J. Lyden White of the National Association of Retail Dealers will discuss the Stevens bill at 2 o'clock tomorrow afternoon. Instead of Thursday forenoon as announced on the program.

Mr. White is a man of national repute on matters pertaining to the retail business, and while he specializes on the drug business, he is also an important figure in influencing national legislation generally as pertaining to the retail business and it is believed that every merchant in Clarksburg would be interested and benefited by hearing this address tomorrow afternoon. Mr. White will discuss national legislation generally and no doubt will have many things to tell the merchants of Clarksburg that will be a great interest to them and Secretary G. W. Dudderar is particularly anxious that the members of the Clarksburg Business Men's League make it a point to attend the lecture and will be the man and be interested in the message he has for them.

COLLEGIANS

Will Meet Norwood Park Team on the Norwood Park Diamond Tomorrow.

At 3:30 o'clock Wednesday afternoon "Dick" Guy's fast Pittsburg Collegians have been winning a large number of games from the best college teams in the state, will meet the Norwood Park team in a game on the Norwood Park diamond. The Collegians are old time favorites here, many of their players being known by local fans and this taken in connection with the new material in the team, this season, will make a game of much more interest. Two of the players who will be seen in action here tomorrow have already signed contracts with big league teams and will report to them for training late this summer. One of them will play with the New York Giants and the other will go with the Cincinnati Reds.

The Norwood Park team which made a good showing against the Cuban Giants last week, has been practicing evenings at the park and is in the best condition it has been in this season. The probable line-up of the game Wednesday afternoon will be Lowe pitcher, Barnett catcher, Seigrist first base, McDuff second base, Quinn third base, Carduff shortstop, Moran right field, Cropp center field and "Bull" Smith left field.

Manager Danaham, of the park, has been busy engaged this week building grandstand seats at the park so all attending the game Wednesday will be guaranteed a seat. The ground has been worked daily and while it has been raining constantly it is in good condition for the contest.

DARST UPHELD

By Attorney General Lilly as to Date the New Law Becomes Effective.

CHARLESTON, June 15.—An opinion made public at the office of Attorney General Lilly of West Virginia upholds the contention of State Auditor Darst that the new corporation tax law becomes effective with the fiscal year beginning July 1, 1915, instead of August 23, as was believed. The law, the opinion holds, was so constructed as to be retroactive under the West Virginia constitution. The named date is expected to add largely to the revenues of the state.

GERHARD

Is Well on the Way to the City of Berlin Now.

CHRISTIANSTAD, Norway, via London, June 15.—The Scandinavian American line steamer, *United States*, arrived here yesterday from New York. Among its passengers is Meyer Gerhardt, attaché of the German colonial office who is on his way to Berlin at the instance of Count von Bernstorff, German ambassador at Washington, to present the American political situation to the German authorities.

NEGRO LYNCHED.

LITTLE ROCK, Ark., June 15.—L. Haley, the negro who on Saturday shot and killed Roy Lester, a young planter of the same county, was taken by a mob from Sheriff Boyett and it is believed was lynched today somewhere in the woods between Louisville and Hope. The mob nearly 200 strong overtook the sheriff while he was in his automobile driving toward Little Rock to place the negro in the penitentiary for life keeping.

Mrs. G. W. Hoover has gone to Keyser, where she will visit her parents, Dr. and Mrs. Gerstell, a few days, and will then accompany her sister to Baltimore for several weeks' visit.

12% ADVANCE ON THIS OIL STOCK THURSDAY, JUNE 24th.

There are probably fifty thousand investors figuring on a part of this stock. Among these are the people who are left. This notice will appear in reliable newspapers all over the United States and in Canada. It will reach over ten million readers. We are going to raise this needed capital in a big campaign. We can combine a few oil fields. Therefore the oil business can prosper even under present times. The Uncle Sam Oil Company always raises its new capital direct from the people. We offer the American public a real opportunity to be the promoters.

Even a few hours' oftentimes makes a big difference in the oil fields. This Company is doing things. We know the oil fields and with a quarter of a million dollars in cash now can secure and develop properties that can easily produce millions.

We could have purchased the Cushing fields at from \$3.00 to \$10.00 per acre if we had made a few years ago. Now it has already produced nearly one hundred million (100,000,000) barrels of high grade crude oil. We can combine a few oil fields. Therefore the oil business can prosper even under present times. The Uncle Sam Oil Company always raises its new capital direct from the people. We offer the American public a real opportunity to be the promoters.

There is a provision in the charter that protects the company. Many of the leading stockholders believe there is a good chance for a stock price of \$10.00 per share in a few years. The Federal government controls all the oil lands in Oklahoma. In the past the oil and gas monopoly has been able to control about 30 per cent of the production from these lands. The Uncle Sam Oil Company has proven in federal court that it honestly secured a lease from the Indians of 436,000 acres. The influence of the monopoly has thus far deprived our stockholders of the full value of the oil and gas. This can be validated either by Congress or by the Supreme Court. The Company has been introduced in the last three sessions of Congress to validate this lease to the Uncle Sam Oil Company. We are organizing now for a final fight for this Oklahoma Uncle Sam lease.

When you become a stockholder you own a proportionate interest in all the oil wells, refineries and all rights and property of the Company. We have one well on one of our big leases in Pawnee County that is 2,512 feet deep. In a short down a few days this well will be filled up and flowed over the top.

A force that will push oil up over a hill may develop a ten thousand barrel well at the next location. This particular lease stretches across a total of 1,000 acres in Pawnee County from farm to farm. We should start three or four drills on this property.

When you become a stockholder you own a proportionate interest in all the oil wells, refineries and all rights and property of the Company. We have one well on one of our big leases in Pawnee County that is 2,512 feet deep. In a short down a few days this well will be filled up and flowed over the top.

RECORD INSURANCE BUSINESS IN STATE

Last Twelve Months According to the Annual Report of Mr. Darst.

CHARLESTON, June 15.—Based on the risks written and premiums collected life and fire insurance companies operating in West Virginia transacted a larger business in the last year than in any year in the history of the state, according to the annual report of the insurance department, just issued by Auditor John S. Darst, who is also ex-officio insurance commissioner.

A total of 145 fire insurance companies operating in West Virginia during the last year, two were home companies, eighty-seven were American companies and fifty-six were companies of foreign countries admitted to do business in the state. These companies wrote risks in 1914 amounting to \$199,062,885, an increase of \$5,000,000 over the preceding year. Premiums were collected to the amount of \$2,388,338. The net losses paid were \$1,606,984, while the losses incurred were \$1,711,808, the ratio of losses incurred to premiums paid being fifty-nine per cent.

Two West Virginia life companies and fifty life companies of other states transacted business in the state during the year. Policies were issued to the amount of \$32,360,037 by these companies; premiums collected, \$4,920,563.49, and \$1,253,506.90, leaving insurance in force at the beginning of the present year to the amount of \$161,600,394.

Forty-four fraternal beneficiary societies operate in the state, writing insurance during 1914 to the amount of \$7,167,200. Premiums received were \$686,282.46; losses incurred, \$455,966.89. Life insurance in force at the end of the year was \$57,011,976.

Thirteen farmers' mutual co-operative companies, doing business in West Virginia only, collected in premiums, assessments and policy fees during the year \$109,250.56, paid losses amounting to \$61,700.62 and

WILLIN SEVEN THOUSAND FEET OF OIL IN 8,000-BARREL PRODUCE.

The Company has made a payment on fifty acres, nearly the center of the township that contains nearly all of the great Cushing Oil wells. Even an 800-barrel well on this new property would mean a fortune to our company—as it does to country lines and we could soon drill a dozen wells around it and soon put our pipe line and refineries at increased capacities.

The chances are good for from a 200 to a 3,000-barrel well on our ranch creek properties. Why should 3,000 to 4,000-barrel wells be found in the Boston pool, five miles away, and not some of the wells in the Cushing Creek pool?

We are determined to drill in the immediate future three wells on our Ranch Creek properties for a substantial amount. When the Cushing deal is entirely closed, and these five wells are completed, the Uncle Sam Oil Company may have a ten thousand barrel production daily.

The fact seemed to have favored the Uncle Sam Oil Company. Injustice and persecution, when backed by the brute power of criminal mobs, can drive a generally honest man to crime. But right is on our side. The Uncle Sam Oil Company may soon succeed on a big basis and its fifteen thousand stockholders will be able to see the fruits of their investment. We are determined to force justice and thereby the validation of this vast oil and gas monopoly.

The oil and gas monopoly is the black slave power of the present age in the government and nation. It is a great district with unlimited possibilities to make millions, based on the fact that how their knees bow to their God. The Uncle Sam Oil Company is battling for justice for both producer and consumer.

If you are an honest citizen willing to become a useful member in a worthy organization, we want you. We want you to make a profit with principle, and join this rapidly growing enterprise that you know is of great merit. We want you to know full particulars, or cut out the following order blank and attach remittance for a substantial amount before other wide-awake investors secure what you know you should own.

Our space is limited, but we would gladly furnish as much convincing proof as all this advancing oil stock would accept. Your property is in the oil and gas wells that will be only a few hundred feet from oil wells. Send your remittance today and this independent company cover the Middle West with its red, white and blue tank wagons and automobile delivery trucks. We have been noted by the Stars and Stripes as a real competitor of the oil and gas monopoly can prosper and pay good dividends to its stockholders, and be a blessing to the general public and also help protect the Indian tribes that have been noted by this oil and gas trust in the past. Your remittance may be small but combined with others will soon accomplish splendid results.

Remember, the advertised price of this stock will be advanced on Thursday, June 24, and you must start your remittance at once or not later than

that date or it will have to be returned. Other advances will be certain soon to follow. The future will prove that this is a real opportunity offer to you. There will only be one real opportunity of the oil and gas monopoly in America and that will be The Uncle Sam Oil Company.

There are lots of honest people in the world and thousands of true men at the heads of corporations. The big monopolies do not want the people to combine in big stock companies. They want the people divided so they can trust little alone, but twenty thousand Americans, banded together under the Uncle Sam flag, can do more to regulate the oil and gas monopoly and make a big profit at the same time than all the muckrakers and fake reformers ever heard of.

We are making a practical fight. Expect to be led about and see our Company bettered and stand. We are making a practical fight. Expect to be led about and see our Company bettered and stand. We are making a practical fight. Expect to be led about and see our Company bettered and stand.

Our organization is feared by the trust. They know that twenty thousand stockholders can smother out the big political grafters and force justice in government. Twenty thousand stockholders, with their relatives, social and business associates, combined in one stock company, will command consideration and respect and in time will make the Uncle Sam Oil Company a National Success.

Wise investors will soon see the great future of this Company and will be anxious for the stock. The oil and gas monopoly hates to lose millions on profitable trades and see their trade go to a legitimate profit and consequently will "squall," but pay no attention to their subsidized press. Buy a good block of this stock and help yourself and a good cause with a real opportunity beckons you on to prosperity.

Honorable attorneys, bankers, merchants, farmers and laboring men—leading stockholders. Wide-awake citizens right in the oil fields buy this stock. One well to the west of Tulsa, twenty miles of the West Tulsa, Uncle Sam Refinery increased its holdings over a hundred thousand barrels a month. The future will prove that you will own a real oil stock when you become a stockholder in The Uncle Sam Oil Company. If you have lost in other investments make it back on this advancing oil stock while the offer of leadership of investors who live right in the oil fields. Follow the lead of the Uncle Sam Oil Company and know that The Uncle Sam Oil Company is pushing ahead in good faith and

The stock is non-assessable, and the cash payment, together with your agreement to transfer and approve the Company's full payment, if the Company approves you as a stockholder. It wants none but patriotic, liberty-loving citizens as its stockholders, and therefore reserves the right to approve or reject and subscription to its stock. If you should not be approved your money will be promptly returned to you.
